ENJOY AMAZING COMFORT! EXPERIENCE BREATHTAKING CONTROL!

Miss D. A. of NEW YORK, New York—leading Foundation Garment Buyer, writes: "For years I have worn your Heavenly Figure (and I've tried many others that were more costly). They feel amazingly soft, and outlast many others. They are scientifically designed for greater comfort and better control, "YOURS FOR MORE COMFORTABLE CONTROL!"

Mrs. E. H., an experienced Home Economics Teacher and model, re-orders for the fifth time and writes: "Thanks a million for your Heavenly Figure. I wear it when I teach and go out on dates and hardly realize I am wearing a girdle. No more double stomach, just a Heavenly Figure. My mother who is heavy always wears it; it does wonders for her figure—It improves her form—she always wears it. My friend who is thin says it's so amazingly comfortable she feels like she is not even wearing a girdle. I hope you will always have it available."

Altar Lace

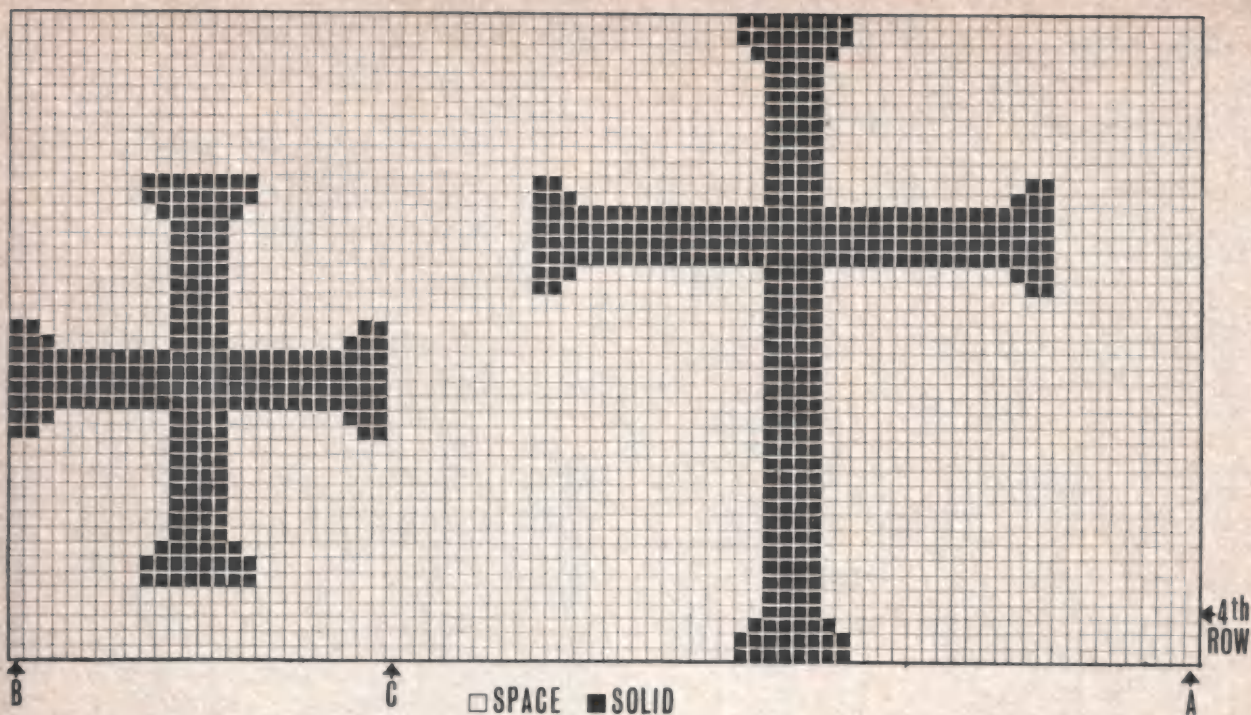

This attractive altar lace in filet measures approximately 11 inches deep, including edge. To make about 23 inches of lace, including edge, you will need approximately 300 yards of white J & P Coat's Best Six Cord Mercerized Crochet Thread size 50 and a size 11 steel crochet hook.

Gauge: 6 sps equal 1 inch
6 rows equal 1 inch

Abbreviations:

ch (chain)	bl (block)
st (stitch)	sp (space)
sl st (slip stitch)	dec (decrease)
dc (double crochet)	inc (increase)
sk (skip)	

Lace: Starting at lower edge, make a ch about 24 inches long, or length desired. If a longer ch for wider altar lace is desired (there are about 18 chs to each inch) it must be long enough to make a number

of sps divisible by 82 sps, plus 56 sps.

Row 1: Dc in 8th ch from hook, * ch 2, sk 2 chs, dc in next ch for a sp, repeat from * across until there are 138 sps. Cut off remaining ch, ch 5, turn.

Rows 2 through 5: Sk last dc of last row, dc in next dc, * ch 2, dc in next dc for a sp over sp, repeat from * across, end with ch 2, dc in third st of turning ch, ch 5, turn.

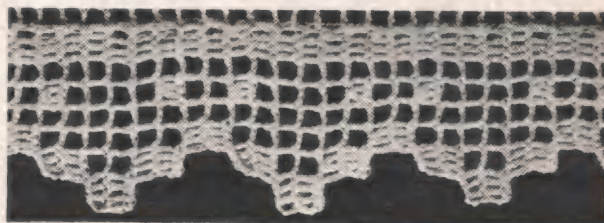

Row 6: Make a sp over each of next 24 sps, (2 dc over next sp, dc in next dc for a bl over sp) 8 times, make a sp over each of next 74 sps, make a bl over each of next 8 sps, make a sp over each of last 24 sps.

Row 7: Make 24 sps, (dc in each of next 3 dc for a bl over bl) 8 times, make 74 sps, make a bl over each of next 8 bls, make 24 sps, ch 5, turn.

Row 8: Make 24 sps, ch 2, sk next 2 dc, dc in next dc for a sp over bl, make 6 bls, make 75 sps, then 6 bls, make a sp over bl, make a sp over each of last 24 sps, ch 5, turn.

You are now ready to begin working from row 4 on chart. Begin at A on chart and work to B (if altar lace is made wider these sts are repeated). Each row ends by work-

ing from A to C once. When last row of chart is completed, work 5 rows of sps as at beginning. Fasten off.

Edge: Begin at narrow end, ch 18.

Row 1: Dc in 4th st from hook, dc in each of next 2 chs, (ch 2, sk 2 chs, dc in next ch) 3 times, dc in each of last 3 chs, ch 3, turn.

Row 2: Sk last dc of last row, dc in each of next 3 dc, (ch 2, dc in next dc) 3 times—makes 3 sps, dc in each of next 2 dc, dc in top of turning ch, ch 5, turn.

Row 3: (Dc in 4th ch from hook, dc in next ch, dc in next dc) an inc bl, 2 sps, 1 bl, 1 sp, 1 bl, ch 3, turn.

Row 4: Working sps and bls as before, make 1 bl, 4 sps, 1 bl across row, ch 5, turn.

Row 5: Make an inc bl, 5 sps, 1 bl, ch 3, turn.

Row 6: Make 1 bl, 5 sps, 1 bl, turn

Row 7: (Sl st in each of first 4 dc) a dec bl, ch 3, make 1 bl, 4 sps, 1 bl across, ch 3, turn.

Row 8: Make 1 bl, 1 sp, 1 bl, 2 sps, 1 bl, turn—do not make a ch to turn.

Row 9: Make a dec bl, ch 3, 1 bl, 3

sps, 1 bl, ch 3, turn.

Row 10: Make 1 bl, 3 sps, 1 bl, ch 5, turn.

Repeat rows 3 through 10 for length of altar lace. Fasten off.

Press lace and edge through damp cloth. Sew edge to starting ch of lace. After sewing in place, spray with starch and press again.

Knit Place Mat

Reversible place mat is attractive on either side. You will need two balls Coats & Clark's Speed-Cro-Sheen in white or a color; one pair number 3 knitting needles or size needed to work to gauge; and steel crochet hook size O. Finished mat is about 12 x 18 inches. For a larger or smaller size, add or subtract 7 stitches of pattern.

Abbreviations:

p (purl)	O (yarn over)
tog (together)	st (stitch)
dec (decrease)	sc (single crochet)

Gauge: 5 sts equal 1 inch

Pattern St: Multiple of 7 plus 4. Cast on 18 sts for sample swatch.

Row 1: K 2, * p 1, p 2 tog (a dec), O (an inc), p 1, O (an inc), p 2 tog (a dec), p 1, repeat from * across,

ending row with k 2.

Row 2: K 2, p across, k last 2 sts.

Row 3: K each st.

Row 4: Same as row 2.

Place Mat: Cast on 88 sts. Work border in garter st (k each row) for first 4 rows. Work in pattern for 12 inches or desired size. Work 4 more rows of border in garter st, bind off.

Finishing: Work a row of sc around place mat. Starch lightly and block.

Tatted Daisy Edge

Dainty tatted daisies make a vely addition to a handkerchief. You will need a ball of tatting cotton in white or color of your choice and a tatting shuttle.

Abbreviations:

r (ring)	rw (reverse work)
ds (double stitch)	sep (separated)
cl r (close ring)	sk (skip)
p (picot)

picnic fare

Picnics are relaxing, informal and fun! They are easily prepared when some equipment is set aside for the purpose and kept available. For traveling to beach or park, a picnic basket packed with dishes, openers and condiments can be kept always ready to go. Frozen cans of refrigerant or plenty of ice should be on hand for use with insulated chests. Some things can be stored in car trunk for quick get aways—portable grill, fuel, long handled tools and heavy pan holders. Keep thermos containers, matches, lighter fluid and other basics together for last minute loading for outing. Patio picnics also are more convenient when a few special items such as large carrying trays and plastic tablecloths are utilized. At home or away, plan to start fire 45 minutes or more before cooking is to begin. Brush grates with oil to prevent sticking. Leave an inch between coals to help prevent flames and have water bulb or sprinkler on hand to control ones that do occur. Use hickory, oak, apple or cherry wood chips to add smoky, gourmet flavor. Soak chips in water an hour before using. Add

a few at a time to fire—if they flame, add more wet chips. Don't forget basting brush, cutting board and carving knife for chef who is going to prepare that delicious outdoor meal. And after the picnic, repack equipment so it is all set for the next outing.

Picnic Iced Tea

- 2 cups cold water
- 8 tea bags or teaspoons loose tea
- 2 cups cold water
- 6 tablespoons frozen concentrated pineapple juice
- sugar to taste, if desired

Bring 2 cups freshly drawn cold water to full rolling boil in saucepan. Remove from heat and immediately add tea bags or loose tea. Stir, cover and let stand 5 minutes. Stir and strain into a pitcher holding another 2 cups of fresh cold water. Add pineapple juice and sugar. Stir to dissolve sugar. Chill thoroughly before pouring into vacuum bottle. Makes 1 quart.

Chocolate Barbecue Boats

Using aluminum foil make a boat-shaped container 5 to 6 inches long with 1-inch sides. Pinch ends together. Stack 5 vanilla wafers spreading each layer with jam. Place on side in foil container. Between wafers insert miniature marshmallows and semi-sweet chocolate morsels. Place foil "boats" over low heat until marshmallows and chocolate are softened, approximately 10 minutes.

Tuna Bar-B-Q Burgers

- 2 cans (6½ or 7 ounces each) tuna in vegetable oil
- ½ cup chili sauce
- ¼ cup minced green pepper
- 2 tablespoons minced onion
- ½ teaspoon salt
- ¼ teaspoon hot pepper sauce
- 6 hamburger buns, sliced
- onion rings, optional
- pepper rings, optional

In medium size bowl, blend tuna, chili sauce, pepper, onions, salt and hot pepper sauce. Spoon onto bottom half of hamburger buns; garnish with onion and pepper rings; cover with top of bun. Wrap in aluminum foil; place on grill for about 8 to 10 minutes on each side. Serve hot. Makes 6 servings.

Covered Watermelon Bowl

To make watermelon bowl, cut a top slice off a watermelon about ½ of way down. This will serve as a cover for bowl, to simplify toting to picnic. Scoop out watermelon from both cover and bottom sections, discarding seeds. Cut scooped-out melon into cubes or balls. Combine melon cubes, orange sections, blueberries, strawberries, banana slices and green seedless grapes. Sprinkle with fine granulated sugar. (Bananas won't discolor if you add ascorbic acid mixture to sugar.) Heap fruit back into shell. Put top slice back on melon and tape together with masking tape or transparent tape. Chill in refrigerator until ready to leave for picnic. Then transport in ice chest to keep it frosty cold

With clothespins and pie pans, grill becomes an oven to bake Campers' Blueberry Coffee Cake.

Camper's Blueberry Coffee Cake

Lightly grease two 9-inch foil pie pans. Prepare batter as directed on 1 package of blueberry muffin mix. Pour batter into prepared pan; cover with inverted second pan. Secure rims together with spring-type clothespins. Place on grill 4 inches from hot coals. Cook 15 minutes on each side, moving pans occasionally for even baking. Makes 6 to 8 servings.

FLOWER and GARDEN

Why do only two of my seven crape myrtle plants bloom? H. H., Ill.

Possibly they are shaded—these need full sun—or are competing with roots of nearby trees or shrubs. Or they may be in poor soil.

I would like to know how to take care of an elephant ear plant. L. A. L., Va.

Set bulb in very rich soil in late spring. Keep quite wet once growth starts and apply liquid plant food (liquid manure is ideal) every week through August. When frost knocks down leaves, cut them back. In a week or two lift bulb with a large clump of adhering soil. Let cure in a frost-free place, store in a box in a cool dry basement. Wash clean in spring and re-plant.

What care should I give a Hawaiian ti plant? Mrs. P. C., Colo.

The only real requirement for this plant is high humidity—as high as you can possibly get. Any window exposure and average room temperature are good enough for over winter. Keep barely damp. In summer set outside under high shade, keep quite moist and feed bi-weekly with house plant fertilizer.

How should a palm tree be started? Mrs. J. C., N. Y.

Plant fresh seed half an inch deep in sandy soil and keep barely moist until germination occurs — sometimes several months. I have planted seeds of dried grocery store dates and had nice little plants come up.

My peonies have not bloomed in two years although I have given them bone meal. Are they planted too deep? Should they be taken up and transplanted? Mrs. F. M., Mich.

Peonies need about two inches of soil over crown, they tolerate no root competition from nearby trees or shrubs and they need full sun. It is best to lift them only when absolutely necessary as they seldom flower for 3 or 4 years after transplanting.

Garden questions are answered each month by Dr. John P. Baumgardt only in pages of *The WORKBASKET*, none answered through mail.

What can be done to destroy cyclamen mite? Mrs. J. S., Tex.

Think seriously about burning infested plants. They are hardly worth saving. But you can use a selenium miticide—it goes into soil and is taken up by plant—and you might want to try using a foliar absorbed systemic insecticide.

How should Korean pine tree seeds be planted and should seeds be filed or left as they are? Mrs. S. K., N. J.

Fresh seed usually germinates in ten to thirty days. Mix older seed with barely damp sand in a plastic bag and store in refrigerator (do not freeze) for six to eight weeks, then sow. No mechanical scarification is required.

How can I prevent leaves from turning yellow and falling off a potted azalea plant? N. T., W. Va.

Usually this means that soil is not acid enough. Repot in a mixture of 2 parts brown peat moss and 1 part each soil and sand. Use acid plant food monthly, April through July. In winter months keep cool and moderately damp. Feed only lightly if at all.

My bird-of-paradise plant finally bloomed after 10 years. When can bloom be expected again and can anything be done to encourage it? Mrs. H. F., N. Y.

These plants like steamy, hot places during both winter and summer. In summer give more water and fertilize lightly every other month with house plant food. Give less water in soil over winter. Blooming-size plants may flower anytime.

Please tell me proper care for growing a gardenia plant. Mrs. A. M., Cal.

In frost-free garden simply plant in acid soil well enriched with organic matter, feed with cottonseed meal and keep well watered. In a pot, plant in equal parts of acid brown peat moss (pre-moistened) and sand with just a trace of garden loam added. Keep pot damp at all times, spray leaves daily with tepid water, feed monthly with fish emulsion and give a little iron sulfate in water (one teaspoon per gallon) once each month. Gardenias need a cool, sunny room with very high humidity and no gas fumes or drafts if they are to be grown indoors.

Patio Plants

Robert C. Baur

Whether you garden year 'round or just in summer, you can grow these potted plants on your patio. They are popular with California gardeners, but short season growers too will find this versatile trio gives top performance indoors as well as out-of-doors.

Chinese Hibiscus, Rose of China, *Rosa Sinensis*

Chinese Hibiscus known as the Rose of China or *Rosa sinensis* is a tropical shrub grown in tubs for its exotic blossoms and lustrous ever-green foliage. Months of spectacular bloom are provided by single and double flowers which vary in color from flaming reds and orange-yellow to pastel pinks and frosty white. Potted in light, well-drained soil, bi-monthly feedings of liquid fertilizer encourage continued flowering. As flowers form on new growth, old wood should be pruned out between flowering periods. Pinching back new shoots induces bushiness. Increased by

cuttings, two to four year old plants flower best. However, older plants will bloom if pruned and top dressed annually with fresh soil. Give this Hibiscus a warm, sunny, indoor temperature, (southern exposure preferred) and outdoors provide a partly shaded area to keep plants from hot summer afternoon sun.

Effectively displayed in floor planters and hanging baskets, handsome spiny foliage identifies *Billbergia nutans* with pineapple family. Striking blue-edged green flowers suspended on graceful red bracts appear between November and April. Well adapted to dry indoor heat, *Billbergia* also makes an excellent house plant.

Little water is required when plants are blooming, but they must be watered frequently during warm summer months when new growth is being made.

Billbergia Nutans, The Queen's Tears

Any loose light soil is satisfactory but this South American plant's natural preference is for fern fiber,

sphagnum moss and crushed charcoal. Sunlight is welcomed in mild morning doses but Billbergia is generally grown outdoors in partial shade.

Tub specimens too large for window display will flower in a bright dry basement.

Trailing Lantana Montevidensis

With abundant sunshine, moisture and proper pruning, Trailing Lantana (Montevidensis) will flower most of the year whether it's in California or Connecticut. It seems to grow exceptionally well along any seacoast. Use any type soil with some bone meal worked into it, generously feeding with liquid fertilizer during growth and

flowering periods. Moisture is a must but moderate watering is preferable to soggy soil. Remember that plants suspended in moss-lined wire baskets dry out quickly.

Prune trailers back to six inch woody stems so new spring flower growth can be made. Shorter branching stems are formed by pinching off ends. Removing flower heads before seed sets is a simple but rewarding chore. While the flowering cycle is continuous, blossoms are noticeably less profuse during frequent rest periods.

Plants will continue flowering

after frost by cutting back woodiest stems and exposing to sunny window, warmth and humidity. Some

growers prefer cool, semi-dry basement storage until pruning time. Fall-rooted cuttings taken from new growth will flower the following summer.

Aspidistra Elatior

Gladys Reed Robinson

As strong as cast iron and as old as Methuselah is my very best way of introducing a pair of *Aspidistra* plants that decorate the porch of a friend. Their summers are spent on porch and winters in a cool store room where they rest and receive only enough water to keep soil from becoming powdery. During their lifetime they have been repotted only a few times by the local florist. Slow growing with tough leaves to withstand all kinds of wind, rain and hail have been their benefactors.

Aspidistra elatior is an easily grown house plant.

The plant has long, broad, dark evergreen leaves and will remain a beautiful shade of green if not exposed to sun. The bell-shaped flowers, dull-brown or purplish in color,

are borne at ground level and usually hidden by dense foliage.

The plants, while they will stand a great deal of dust, smoke, and heat, do enjoy frequent baths of tepid soap and water followed by a thorough rinsing of clear, cool water.

They thrive best in a potting soil containing equal parts of sharp sand, loam, leaf mold or humus and one-half dried cow manure together with one 5-inch flower pot filled with bone meal to each bushel of mixture.

Propagation is accomplished best by separating old plants into several pieces and repotting. March is best time for propagating. Pots must be cleaned thoroughly and a sufficient layer of broken crocks placed in bottom to promote good drainage. Every spring some surface soil may be removed and replaced with fresh compost.

In addition to the all-green variety there is another—*A. elatior* variegata. This attractive plant has variegated leaves as name implies; variegated, green with pale yellow.

It is suitable for planting outdoors in shady places but must be brought inside before frost. It has been known to live outdoors in New York City but winters are much too severe for it to thrive.

It is a native of China and belongs to the Lily family. It is one of the most easily managed of house plants and will look healthy and strong for years and years with very little attention.

Rickrack Posies

Even pert posies don fashionable "mod" colors — canary, lavender, orange and rose blossom in jumbo rickrack! You will need $\frac{2}{3}$ yard of canary (two 12-inch lengths), $\frac{1}{2}$ yard each of other three colors. Also needed are ten 6-inch pipe cleaners, dried beans, a $3\frac{1}{2}$ inch circle of avocado felt plus five $1\frac{1}{2}$ inch circles and five $\frac{3}{4}$ inch circles, a plastic container $3\frac{1}{2}$ inches in diameter and about 2 inches high and a 1 inch thick Styrofoam circle $3\frac{1}{2}$ inches in diameter.

Pot: Fill container half full of beans for weight. Mix in sufficient glue to hold. Glue Styrofoam into container.

Stems: Cut fabric tubing into 6-inch lengths, remove filler cords. Insert 2 pipe cleaners in each tube, securing ends with glue.

Flowers: Two canary flowers and rose flower—run gathering thread down center of each 12-inch length rickrack. Gather or shirr until half the length (6 inches).

Lavender and orange flowers—for each use a 12-inch length of rickrack. Fold 6 inches of it back over other 6 inches and weaving it over

Three-Dimensional Picture

Gertrude Springer

Beautiful pictures with 3-D effect can be made by trapunto quilting. They are inexpensive and easily made.

Completed picture.

You will need a piece of drapery material with desired scene, cotton for stuffing, a piece of $\frac{1}{4}$ -inch plywood (or heavy cardboard for mounting), small piece of cloth for background material (cheesecloth or scrim), a picture frame and a crochet hook. When selecting drapery material keep in mind the finished picture size so it will fit a standard

picture frame. Picture molding could be used rather than a frame.

First select parts of scene that will stand out. This can be easily done with tracing or tissue paper cut to picture size. Move paper around on material until best composition is achieved.

Photograph 1.

Cut drapery material about 2 inches larger than plywood back. Cut backing cloth slightly larger than scene. Pin backing cloth to wrong side of drapery material. With right side of material up, sew around outlined subjects such as trees, clouds, outstanding figures etc. Be

sure to match color of thread to subject. The stitching can be done by hand or machine.

After sewing there will be a pocket behind each subject. Carefully slit backing cloth and stuff cotton into pockets with crochet hook

(photograph 1). For a neater finish, sew slits after stuffing.

To mount, stretch material over mounting board and thumbtack in place on back of board. Place picture in frame and hang on wall. If molding is used, tack picture to plywood and nail molding over it.

Fiesta Jewelry

Willard and Elma Waltner

Bright, splashy jewelry that is perfect to wear with gay summer sports clothes, is easy to make. Its smooth, gleaming, ceramic-like finish completely camouflages its humble origin—ordinary paper.

Begin with the flower pin. A “daisy” type is shown. After finishing it, go on to other shapes using same technique.

Cut eight 4-inch squares of brown paper—either a heavy grocery bag or heavy large envelope may be used. Pour a teaspoon of white glue into a cup. Add a teaspoon of water and mix thoroughly.

Lay a square of paper onto a sheet of waxed paper. Brush on a coat of glue-water solution. Brush a coat of solution on one side of second square. Lay on top of first square and press two firmly together. Brush a coat of solution on top side of second square, then on bottom side of third and press two together. Add another five layers of paper to make a built-up square eight layers thick.

Prepare a flower pattern to fit square. Trace onto brown paper and cut out shape. Cut a $\frac{3}{4}$ -inch circle from scraps.

Use rounded end of small paintbrush handle to press in markings of flower center and veins in petals.

The lines will stay indented in the moist paper flower.

Shape petals with fingers (photo 1). The damp flower will bend and hold any shape. Shape small circle into a dome about $\frac{1}{8}$ inch high at center. Let pieces dry overnight or oven dry pieces at 200 degrees.

Photograph 1

When pieces are dry, glue dome to center of flower, then paint with hobby enamels. Two or three coats give a smooth, high gloss finish. Cement a pin back in place to complete.

Photograph 2

(Continued on Page 38)

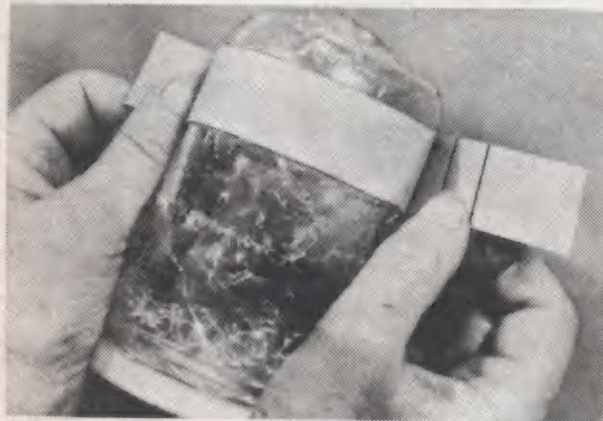

Fiesta Jewelry

(Continued from Page 37)

Make butterfly the same way, shaping wings while paper is damp and flexible. Make body from a fuzzy brown pipe cleaner with fine wire for feelers. Thread tiny beads on ends of feelers and bend wire around them to hold in place. Glue body to painted butterfly wing portion. Photograph 2 shows completed flower and butterfly.

Fiesta bracelets also begin as paper. Form them over a glass jar measuring 9 inches in circumference for an adult bracelet; use smaller jar for a child. Cover jar with plastic food wrap.

Cut four strips of brown paper each 1 inch wide, 9 inches long; one strip 1 inch wide, 9½ inches long. Wrap longer strip around jar and glue overlap. Spread glue solution on strip and on one side of a 9-inch strip. Wrap around the first strip. Edges will just come together. Add other strips, with joints at different places around circumference—(photo 3.)

Photograph 3

When band is dry build up the bracelet with dough. About 2 yards of toilet tissue will make enough dough for one bracelet. Tear tissue into small pieces and soak in warm water for about 2 hours or until paper disintregates. Run through a strainer and squeeze out excess

water. You will have a soggy mass. Break into small pieces with fingers or fork into a cup or bowl. Pour on about a teaspoon of white glue as it comes from the container. Work through the mass. Add more glue as needed and work until pliable dough is formed.

Cover bracelet band with a layer of dough about ¼ inch thick. Smooth with a knife blade or fingers dipped in water. Texture bracelet by indenting lines with handle of small paintbrush.

Another way to add surface interest is to press objects into dough covered band. Try short pieces of heavy wrapping cord, split peas, barley, rice, puffed cereal, tiny buttons or beads. Brush a coat of glue on soft dough and simply press on the pieces (photo 4).

Photograph 4

Allow bracelets to dry thoroughly, then work off jar. They will seem tight but can be worked off with a bit of effort. Sandpaper any rough edges and paint bracelet with hobby enamels. A touch of metallic paint adds extra zip.

Basic Shell with Yoke

The ever-popular yoke effect basic shell is made of Wonoco's Fox Heavenly Crepe which is a blend of acetate and nylon. This fashion yarn requires little care, is completely washable and retains shape—costs about 60c for one-ounce skein. It is available in 15 to 20 colors. Directions are given for size 12, changes in parentheses for 14, 16, 18, 20 and 42. It takes 8 (8, 9, 10, 11, 12) one-ounce skeins yarn; one pair of number 5 knitting needles or size needed to work to gauge and number 1 crochet hook.
